

University of California scientists report that the pituitary, master gland of the body, is important in the development of experiments with rats.

The angler is an ugly marine fish abundant around the coasts of Europe and on the American shores from Nova Scotia to the Barbados.

### Developer . . . . .

(Continued from Page 1)

brought by home owners, as charged.

#### Minor Defects

"You can't catch all the minor defects when building a home," he said. "We try to take care of these as soon as we can. We don't always have the labor immediately at our disposal but we catch the complaints within two to four weeks. If there is a legitimate complaint later, we will take care of it."

An attempt has even been made to buy back the houses of presently protesting individuals at full value, it was stated. This offer was refused.

A member of the homeowners' association has stated that refusal was based on the fact that the individuals were concerned in the principle involved than in gaining immediate personal satisfaction and then dropping the matter.

#### Won't Sue

No slander or libel suits are being considered by the company, the spokesman went on to state. The company believes that the matter is not important enough for this. Since only a few people are complaining it must mean that the many are right and the few are wrong thus automatically clearing the company of the charges, it was explained.

#### Open Books

Any responsible individual of authority is welcome to look at the company's books, the spokesman said. The Consolidated Lumber Co., from whom the lumber was bought, will back Watt Development Co., completely, Temple said.

The homeowners brought a list of ten serious grievances before the City Council two weeks ago. The matter was turned over to City Attorney James Hall who will see whether the charges were justified and, if so, what legal action could be taken against the developers.

### Court . . . . .

(Continued from Page 1)

centers making a court here a natural necessity.

#### Support Promised

Assemblyman Vincent Thomas has promised Torrance that he would introduce a bill in favor of a local court before the State legislature. This promise was made prior to the census. The facts which have come to light since the census put Torrance in an excellent bargaining position for such a court, the city manager believes.

Once the legislature passes such a bill, the five county supervisors must still agree upon the court's location by a majority vote. Supervisor Burton W. Chace is known to be in favor of a Torrance court.

A municipal court handles all cases up to \$3000. It has jurisdiction over misdemeanors and holds preliminary hearings on felonies.

#### Had Court Once

Torrance once had a city court. This was dissolved last year when the new South Bay Municipal Court opened. This court consolidated the municipal courts of seven bay localities and serves about 180,000 persons.

The new court would be lo-

### Water . . . . .

(Continued from Page 1)

saved by making fluoridated water available separately rather than treat the whole water supply.

The fluoridation process must be accurately controlled, requiring precision measuring equipment, the superintendent stated.

In some cities water fluoridation has been introduced. Other cities have defeated such a measure.

#### Beneficial

It has been established, however, that fluoridation has prevented tooth decay 41%. Tooth decay which has been called a serious and disgraceful national disease is particularly rampant among children. Fluoridation is one of the means with which decay has been fought successfully.

Eating the right kinds of food will always remain the most effective answer to tooth decay, it is generally believed. Fluoridation will not make food precautions unnecessary, but it can be one more aid in combating decay.

ated on the Torrance and Madrona site which the city has been considering for a new civic center. Legal steps to obtain the site already have been started by the city.

### Burglary . . . . .

(Continued from Page 1)

Wilkie, according to Detective Captain Ernie Ashton and Sgt. Percy Bennett who handled the case.

The youth comes from a broken home. His mother is receiving direct state aid. The boy is one of three children.

Following the burglary, the boy took a bus to Long Beach. He thought he threw some of the costume jewelry as well as some more expensive jewelry into the ocean, according to Capt. Ashton.

### '- CHURCH DIRECTORY -'

**THE FIRST METHODIST CHURCH**—El Prado at Manuel Avenue. Rev. John L. Taylor, Minister. \* Refrigerator Must Be In Running Condition

You have your own private **WASHDAY SUN** when you buy an **AUTOMATIC GAS CLOTHES DRYER.**

Only gas dries clothes so fast —costs so little to run

YOUR TOWELS DRY SOFT AND "THIRSTY"  
YOU HAVE NO CLOTHESLINE DRUDGERY  
YOUR IRONING IS EASIER  
YOUR CLOTHES LAST LONGER

Automatic gas clothes dryer illustrated is the new **BENDIX**

Leading makes include: Barton, Bendix, Becklins, Caloric, Crosley, Hamilton, Hotpoint, Kenmore, Roper, Speed Queen, Tempo, Thor, Wedgewood and Whirlpool.

There's also less wear on you because an automatic gas clothes dryer takes all the drudgery out of clothes drying. Your work is reduced to tossing rinsed laundry into your dryer, setting the control for storage-dry or ironing-damp and removing the dried laundry minutes later. Many pieces, like towels, are so wrinkle-free they require no ironing.

Visit a dealer or your Gas Company. Select your automatic gas clothes dryer now. Insist on an automatic GAS clothes dryer because gas outsells other types here for 3 very important reasons:

- 1 Gas dries clothes faster than any other fuel—faster even than sunshine.
- 2 Gas costs so little—dries clothes for less than 2¢ per dryer-full.
- 3 Automatic gas clothes dryers cost less installed—cost less in the long run, too.
